

Nitrile gloves « Purism » G001

Ref 50001

SPECIFICATIONS

G001 «Purism» examination gloves are suitable for work environments where there is possible contact with bodily fluids, microorganisms and chemicals. They do not contain natural rubber latex and are an excellent alternative for people with Type I allergies.

These are non-powder gloves that offer great flexibility, high sensitivity and resistance to chemicals. They are tear-resistant, ambidextrous and non-sterile.
